REASONS FOR ALLOWANCE

1. Claims 9-14, 16, 18-20, 23-25, 27, and 28 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claim 9 recites a process for producing an oxygen-absorbing package, which comprises: (a) producing an oxygen-absorbing composition comprising a granular iron wherein fine iron powder has been removed such that 5% by weight or less of the iron powder passes through a 200-mesh standard sieve (b) packaging the oxygen-absorbing composition in an air-permeable packaging material using a three-sided automatic rotary filling-packaging machine such that at least several hundred packages per minute are formed and wherein the amount of the iron powder attached to an outer surface of the package respect to a surface area of the package is 0.5 mg/m^2 or less.

The prior art fails to teach or render obvious a process of making an oxygen-absorbing package, which comprises 5% by weight or less of iron powder which passes through a 200-mesh standard sieve and wherein the amount of the iron powder attached to an outer surface of the package respect to a surface area of the package is 0.5 mg/m^2 or less.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
